

RELIANCE POWER PARTS

Cylinder Kits

At **Reliance Power Parts** we are dedicated to providing the highest level of customer service. We stock over **40,000 parts** and have one of the largest aftermarket stock of cylinder kits. What makes Reliance cylinder kits so special? Our cylinder kits are assembled and sold with your convenience in mind. Many Reliance cylinder kits come preloaded, reducing the odds of breakage and speeding your installation process; simply slide the piston down the sleeve to expose the pin and attach the connecting rod and you can be on to your next task. This ease and convenience of installation is what makes Reliance the clear cut choice.

Detroit Series 60

ReliancePowerParts.com is home to a range of **Detroit Diesel Series 60** inframe and overhaul kits, cylinder kits, bearings, valve train components, cylinder head bolts, gaskets and seals. When you need to repair one of the most popular engines for class eight truck applications, rest assured that Reliance Series 60 coverage includes **11.1L**, **12.7L** and **14.0L** engines. These precision parts will give you the reliability and long life that are hallmarks of Reliance products.
